## • Objectives

I'm an enthusiastic and driven individual working my way toward becoming a Full-Stack Developer. I've built a solid foundation in both front-end and back-end technologies, and I genuinely enjoy creating web applications that are not only functional but also user-friendly and scalable. I'm looking for an opportunity to be part of a forward-thinking team where I can keep growing, contribute my skills, and help solve real-world problems through code.
